

3D Retro Truck

Supplies

.125" wood

Steps To Complete

Crafting Instructions

1

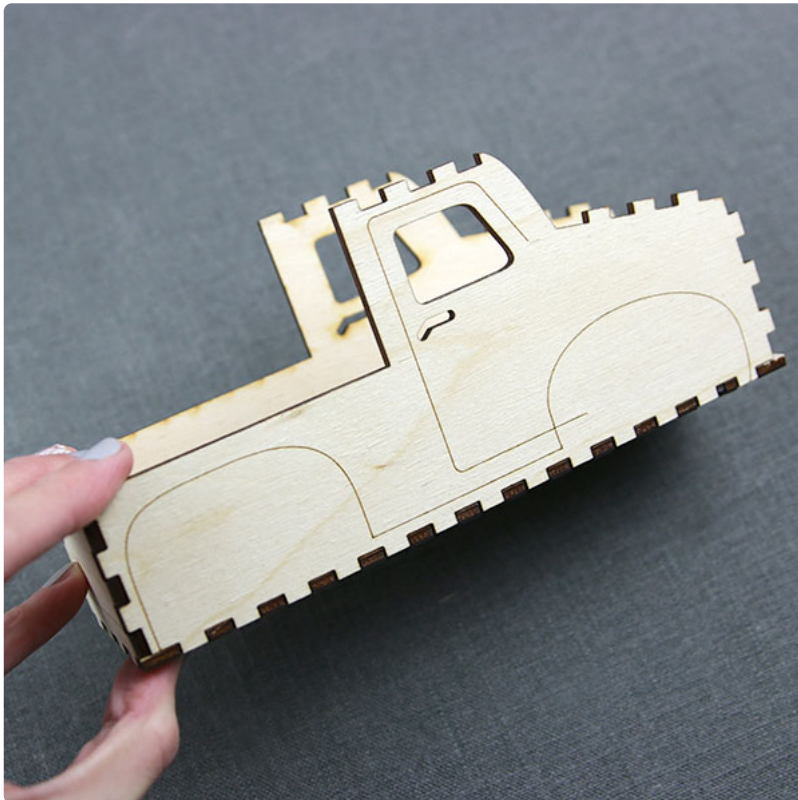

To start, attach piece A-1 to piece K, forming the bottom side of the truck.

2

Attach piece E to the back of piece A-1, creating the back of the truck.

3

Attach piece A-2 to piece K to create the other side of the truck.

4

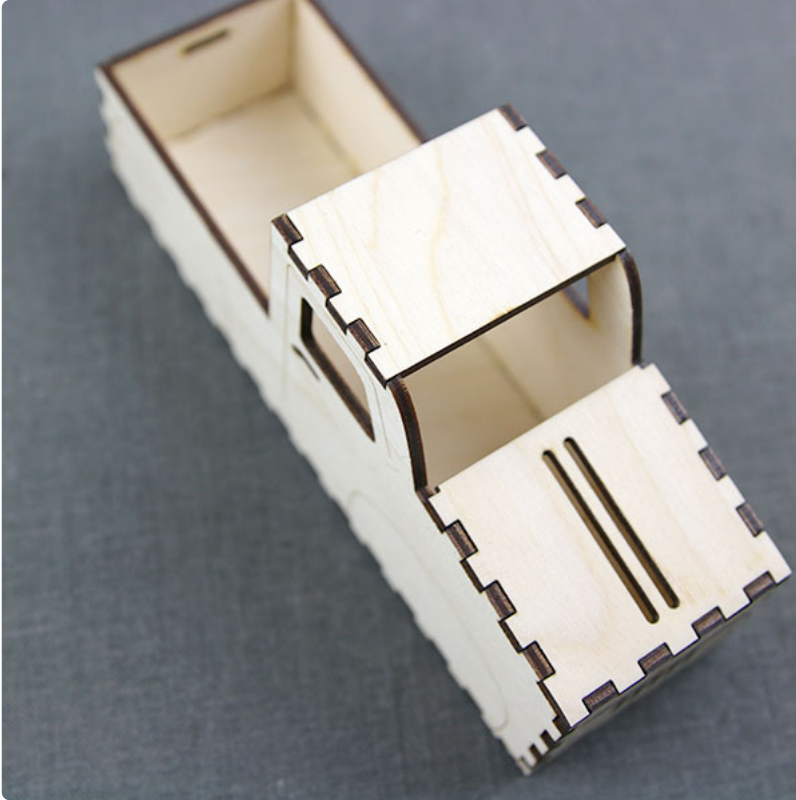

Attach piece D to the remaining side of piece K to form the front of the truck.

5

Attach piece C to the top of piece D.

6

Attach piece B to the top of pieces A-1 and A-2, closing in the top of the truck body.

7

Glue piece G-1 to F-1, and piece G-2 to F-2.

8

Glue pieces H-1 and H-2 into the back truck bed of A-1 and A-2.

9

Using the scoring lines as a guide, glue piece F-1 to A-1 and F-2 to A-2.

10

Using the scoring lines as a guide, glue pieces I-1, I-2 and L-1 to piece D.

11

Using the scoring lines as a guide, glue pieces J-1 through J-4 to piece F-1 and F-2.

If desired, glue the wreath (piece M) to the truck.
